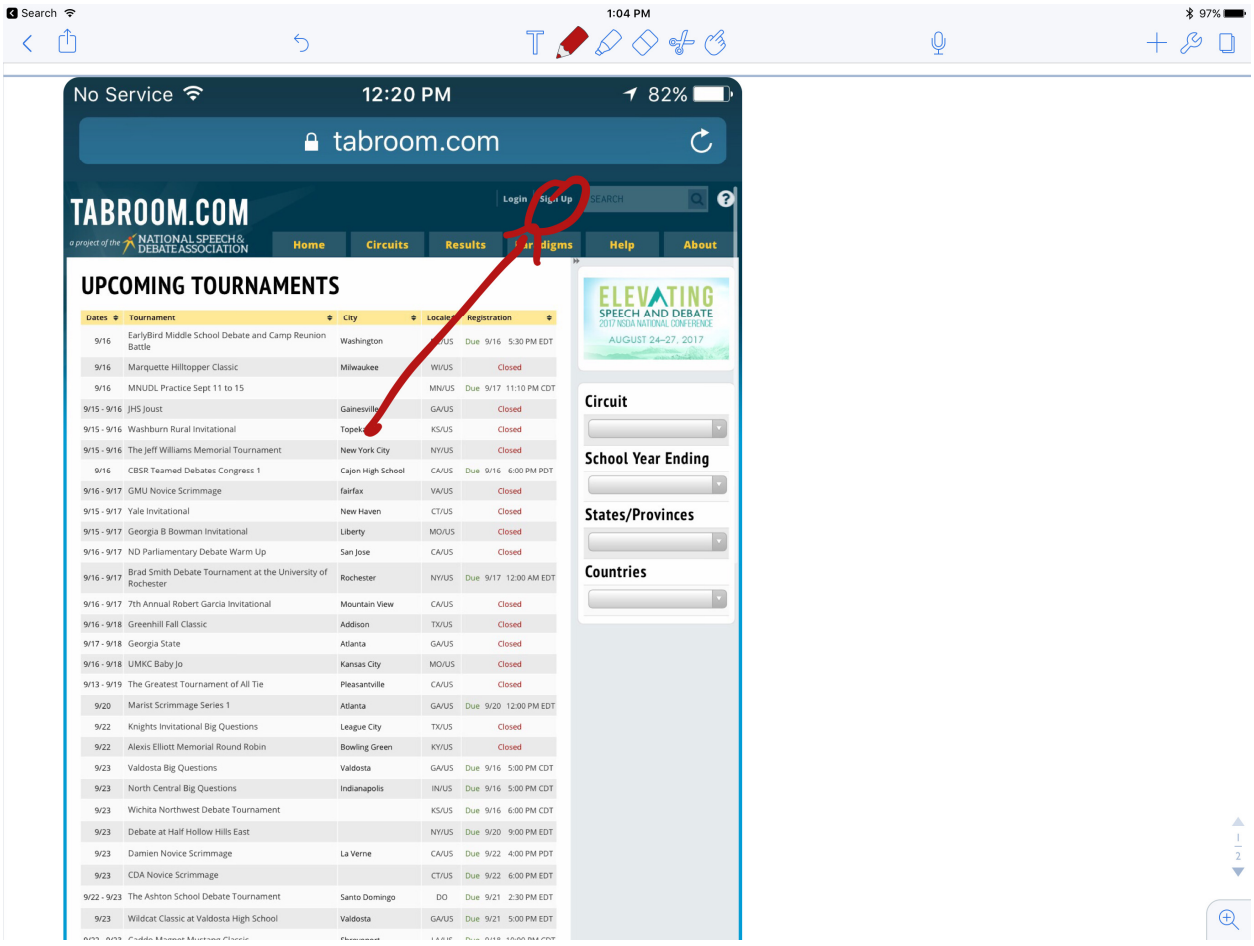
Registering a Judge to receive Live Updates and Ballots

Before the Tournament:

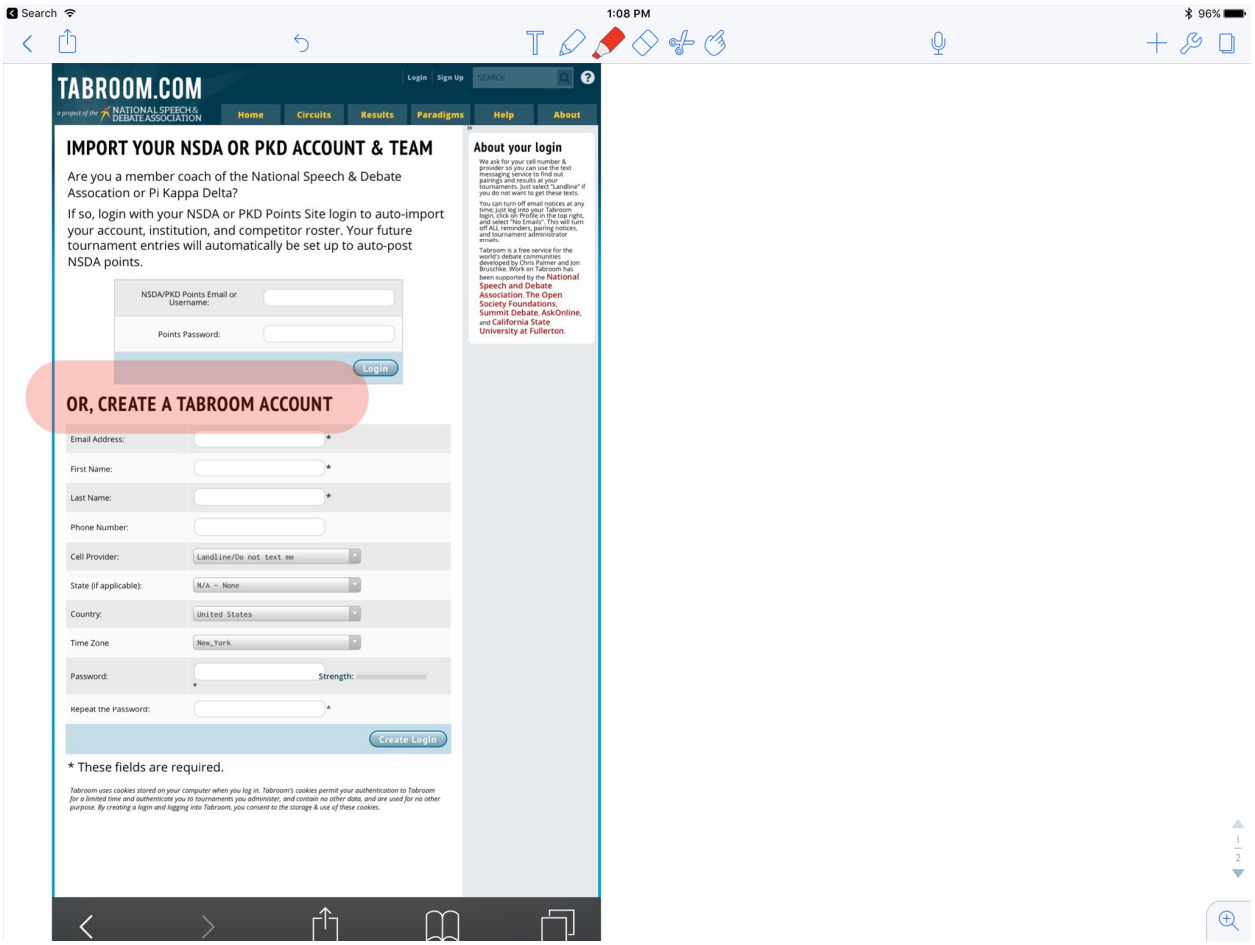
As you always do, you will need to add Judges to your roster. Register the judges for the tournaments you always do.

After you have registered the judges for your school, instruct your judges to do the following (You must have the judge on your roster or this will not work. You also need to be sure that you and the judge are using the same name. Misspellings will cause problems.)

1) Have your judge go to www.tabroom.com. In the upper right hand corner, the student should SIGN UP.

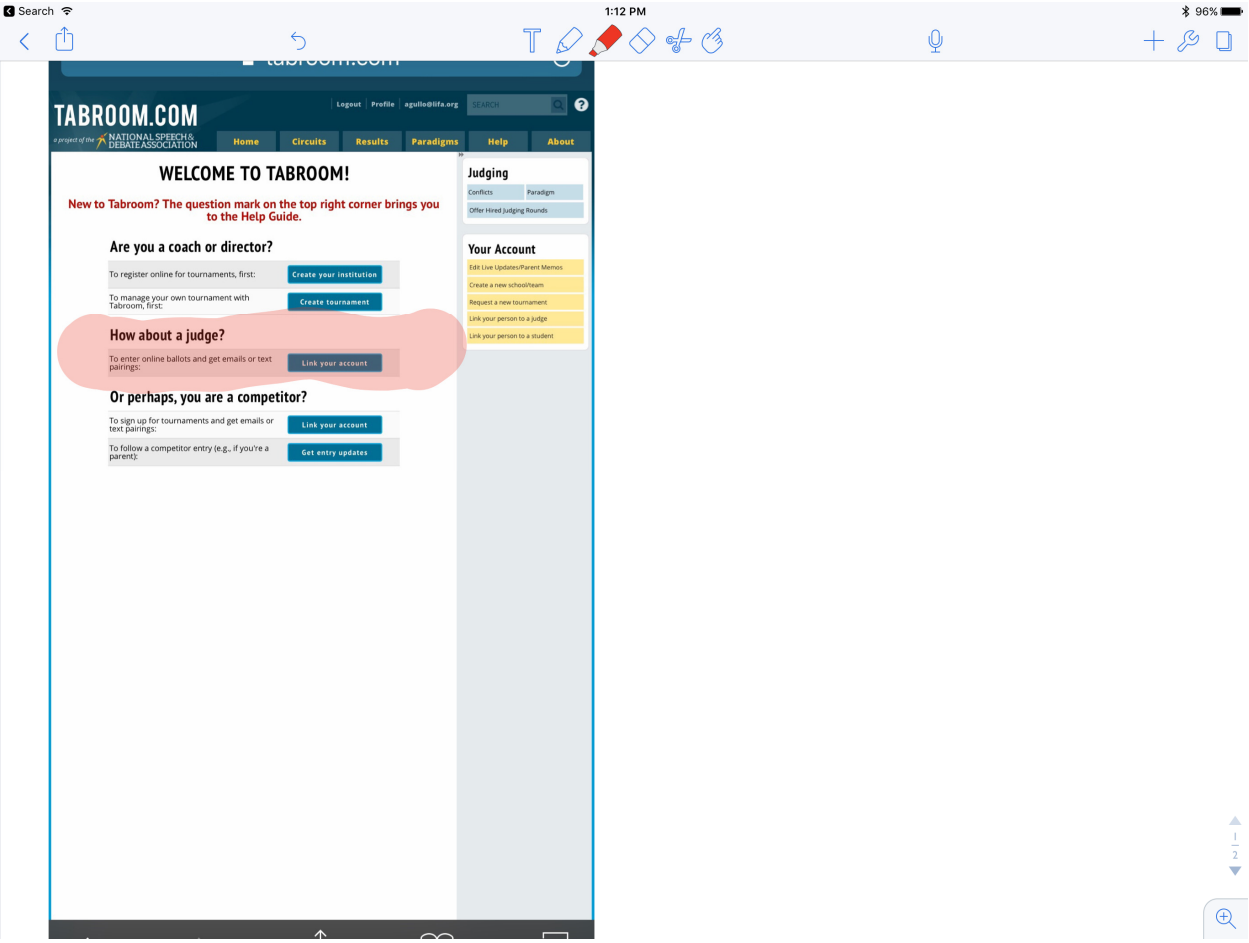


2) The judge should CREATE A TABROOM ACCOUNT.

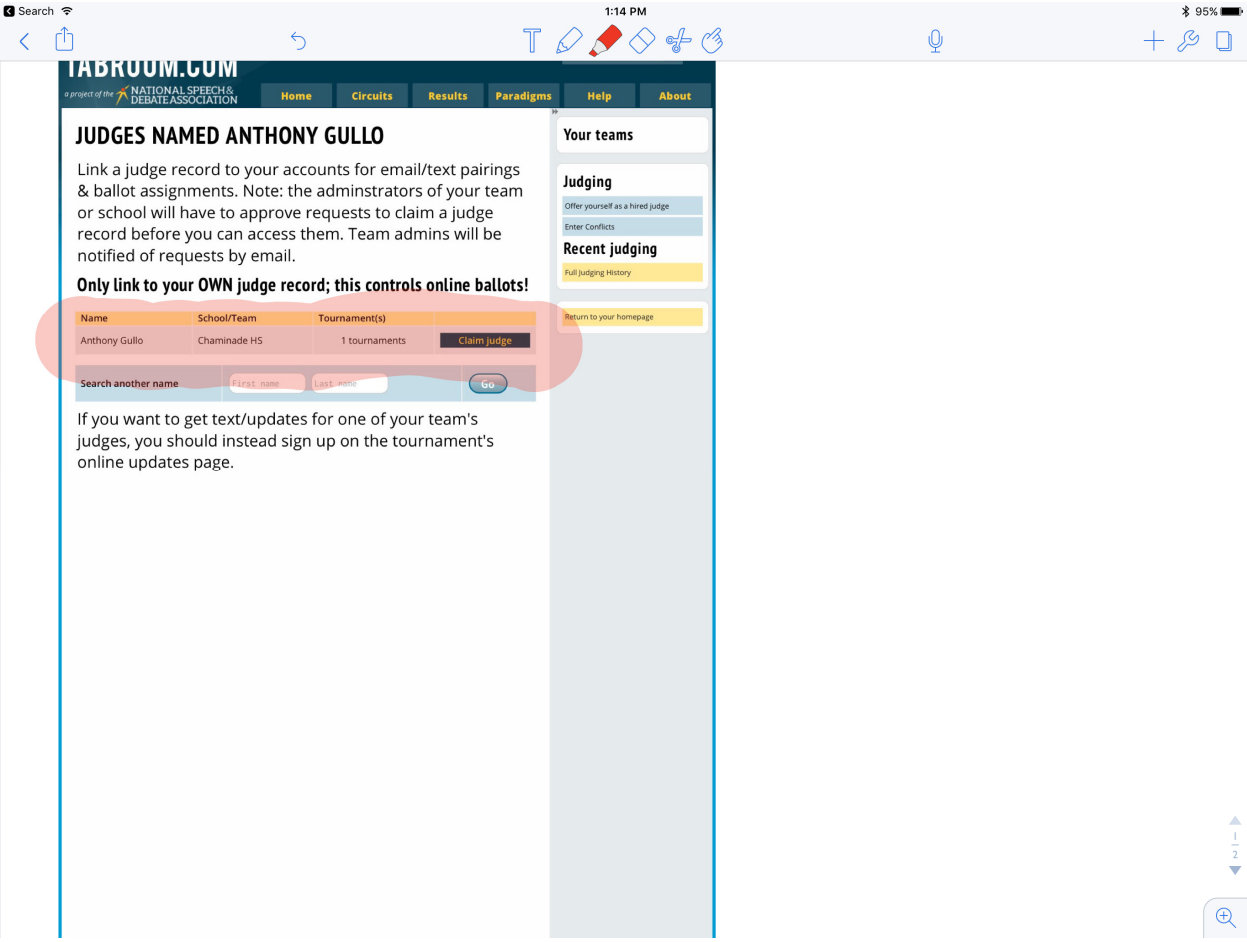


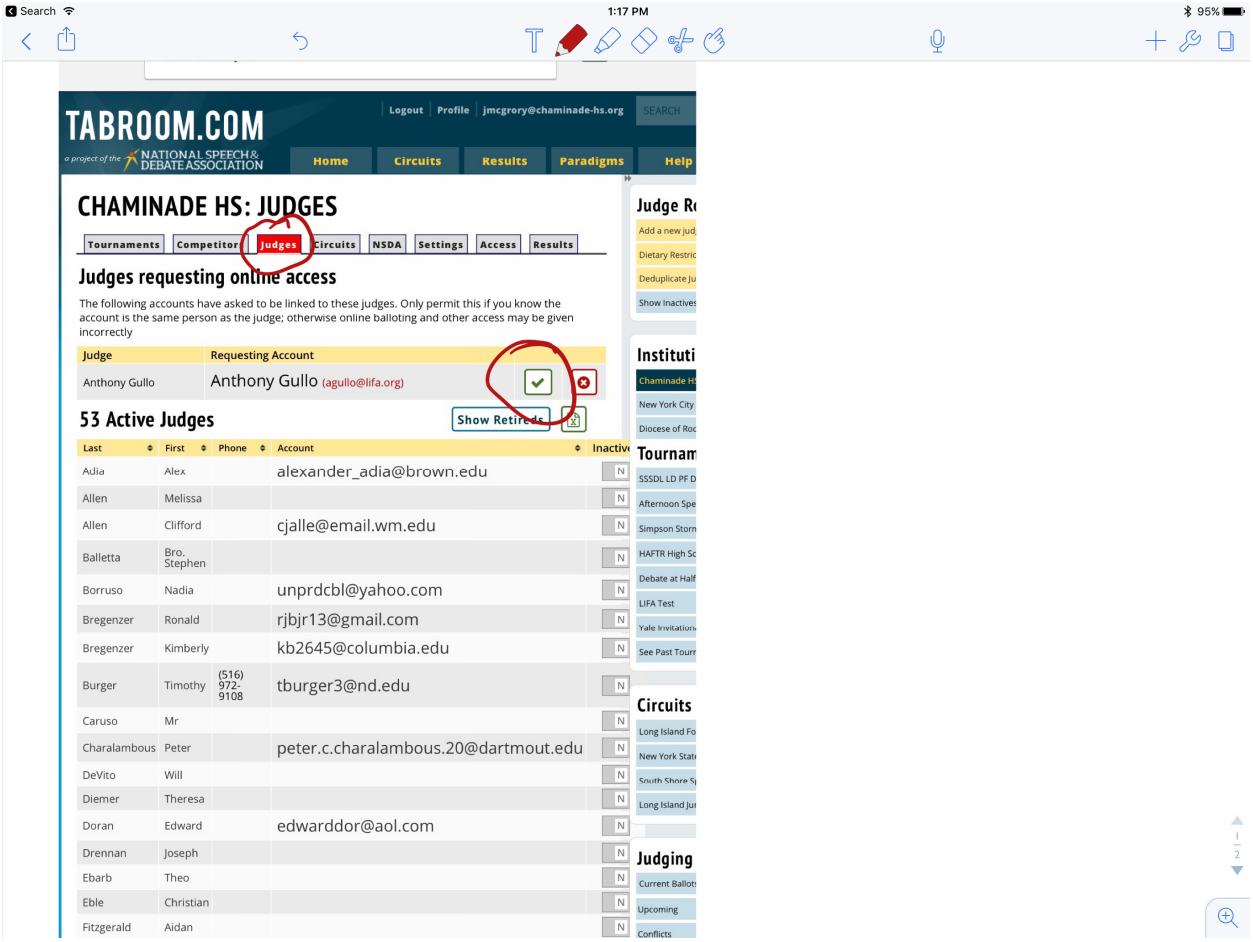
3) After they create the login, they will be brought to a page that says, WELCOME TO TABROOM!

4) Under the Tab HOW ABOUT A JUDGE? They should link to their account.



5) If you and the judge have put in the same name, it will bring the judge to a page that shows your school. The judge will link to your school.





6) You, as the coach, will receive an email. XXXXX wishes to join your team. When you go onto tabroom, you will see the Judge tab will be red. Click on that tab. You will see the names of judges who wish to be linked. Link them up.
